

Witch
Way

Witch Way

Long time ago, there was a tricky wizard to rule the country after the king's death. On the day of the Prince and Princess, she played on the Prince into a frog and locked the castle guarded by a fierce tiger.

The three weapons of the Prince-Helmet, Shield and Sword have been stolen and kept in the wizard. If the frog can't get keys of the door to unlock it and get his weapons within the time, the Princess will be eaten by the tiger.

Those twelve keys are put in three different places. The
Prince must fight with the snakes and the magic fire in
three rounds to get all of them. If he wins all rounds, he
can kill the wizard and get married with the Princess and
live in the castle forever.
